MEMORANDUM FOR: [REDACTED]

25X1

Bud:

Concerning your question, Bud, on video tape collection and exploitation referenced in the attached memo of 17 December from Dino, I have talked to [REDACTED] in the Budget Division and he tells me that they have no catalog forms from Commo on this particular item. He suggests that if you are interested call [REDACTED] in Communications as he is the technical man who would be responsible for such items and he can probably tell you the status of affairs.

In addition, [REDACTED] mentioned that [REDACTED] had been intersted in this sort of an item and had discussed it either with [REDACTED] or some member of his staff as recently as 22 December so there may be some interest in the [REDACTED] shop in this matter.
